

YASH VERMA

Salesforce & OmniStudio Developer | 2x Certified | Apex | LWC | Sales Cloud | Health Cloud | Experience Cloud
Phone: 7351378486 | Email: yashvermaji786@gmail.com | LinkedIn: linkedin.com/in/yashverma77 | Location: Noida, UP

SUMMARY

Associate Salesforce Developer with extensive project experience across Apex, LWC, Flow, OmniStudio, SOQL, and REST API integrations. Hands-on with Sales Cloud, Service Cloud, Health Cloud and Experience Cloud CRM customization. Built production-grade scalable Salesforce applications and a real-time healthcare CRM system aligned with Health Cloud data modelling principles.

CERTIFICATIONS

Copado Robotic Testing Certification - Issued by Copado (2026)
Copado AI Certification - Issued by Copado (2026)

WORK EXPERIENCE

Associate Salesforce Developer | *Algocirrus, Noida* Nov 2025 - Present

- Deployed 10+ declarative automations via **Flow Builder** and complex **Sharing Rules** within **Sales Cloud and Service Cloud**, reducing manual user provisioning effort by 40% and enforcing row-level data security across business units.
- Architected scalable backend solutions using **Apex Triggers, Batch Apex, and dynamic SOQL**, strictly adhering to Salesforce **Governor Limits** — achieving zero governor limit exceptions across all production deployments.
- Configured **Profiles, Roles, Permission Sets, OWD, and Sharing Rules** for data security; leveraged **Copado** to automate CI/CD pipelines, cutting deployment validation time by 30%.

Java Developer | *Jspiders, Noida* Mar 2025 - Oct 2025

- Mastered **OOP, Collections Framework, Exception Handling, Stream API, and Lambda Expressions** in Core Java, building a strong foundation in object-oriented design patterns mirrored in Salesforce Apex development.
- Designed and deployed **JDBC-based applications** integrating Java with MySQL and built a three-tier **REST API (GET/POST)** on Apache Tomcat with **Bcrypt (JBCrypt) authentication**, managing 20+ service provider records with full CRUD operations.

PROJECTS

Carelon (Elevance Health) | *Health Cloud | OmniStudio | OmniScripts | FlexCard | Integration Procedure* Sep 2026 - Present

- Built **OmniStudio based** insurance enrollment workflows using **OmniScripts and FlexCards** to deliver multi-screen dynamic insurance enrollment experiences.
- Developed **Subsidy Calculation module**: captures annual household income, calls external API via **Integration Procedure**, and computes final plan price rendered dynamically on the enrollment screen.
- Implemented **Proof of Eligibility module**: allows members to select a qualifying **Life Event** and upload supporting documents to apply for continued government aid within the Health Cloud enrollment flow.
- Consumed external **REST API responses** via **Integration Procedures** to dynamically render available insurance plans and subsidy eligibility data across multiple screens.

Amazon Seller Central | *Salesforce | Apex | LWC | AWS S3 | Copado | Custom Metadata Types* Mar 2026 – Aug 2026

- Custom Salesforce CRM application integrated with **Amazon Seller Central** to automate e-commerce data sync and streamline operations that automatically tracks action items from seller phone calls, processing live data in real-time AM dashboard.
- Built a **dynamic JSON payload builder** with 3-level fallback priority logic ensuring 100% valid API input; stored AI-generated HTML in custom field for live dashboard rendering.
- Bypassed limitations by engineering a custom **AWS Signature Version 4 (SigV4)** signing implementation in Apex, resolving 403 Forbidden errors caused by incorrect Content-Type headers and empty session token injection.

Hospital Management System | *Apex | LWC | Admin | Flow Builder | Health Cloud Principles* Nov 2025 – Feb 2026

- Built a real-time appointment booking system using **Apex row-locking (FOR UPDATE)** in LWC to eliminate double-bookings; automated patient vitals alert via **Apex Triggers** dispatching real-time email alerts.
- Centralized hospital KPIs using **LWC and Apex controllers** with an **Experience Cloud**-style self-service portal; configured Reports, Dashboards, Profiles, and Permission Sets for 5+ hospital departments.

SKILLS

Salesforce Clouds: Sales Cloud, Health Cloud, Service Cloud, Experience Cloud
Salesforce Platform: Triggers, Batch, Queueable, LWC, Aura, Visualforce, Flow, Omniscript, Flex cards, Data mappers, Data Raptors, Salesforce, Integration Procedures
Salesforce Admin: Profiles, Roles, Permission Sets, Sharing Rules, OWD, User Provisioning, Reports, Dashboards, Record Types
Integration and APIs: REST API, Bulk API, Composite API, JSON, XML, HTTP Callouts, Postman, Salesforce CLI
DevOps and Tools: Copado, Git, GitHub, Visual Studio Code, Jira, Asana, Change Sets, Sandbox Management
Languages and Database: Apex, Agentscript, JavaScript, Java, HTML5, CSS3, SOQL, SOSL, SQL

EDUCATION

B. Tech - Computer Science and Engineering | Shri Ram Group of Colleges, Muzaffarnagar | CGPA: 8 2022 - 2026
Senior Secondary (XII) - Science | St. R.C. Scientific Convent School, Shamli | 83.6% 2021 - 2022
Secondary (X) | St. R.C. Scientific Convent School, Shamli | 81.0% 2019 - 2020
